***Award Conditions to the Financial Assistance Award
Between the Denali Commission and Alaska Power Company
For Eagle Hydrokinetic Turbine Project***

Award No. 313-07

July 2007

1. Scope of Work

Background: The electrical generation facilities in Eagle are currently listed as #31 on the Commissions statewide energy deficiency list. Alaska Power Company (APC) has completed initial design and permitting for a hydrokinetic Turbine to be installed in the Yukon River near Eagle. APC will construct the new project and correct the deficiencies. Based on a 2006 diesel fuel cost of \$2.38/gallon (#2 diesel fuel) and an annual fuel consumption of 56,800 gallons the utility in Eagle could save approximately \$135,000.00/year if they do not run the diesels. For the utility this represents approximately 57% of their operating budget. Additional savings could also be recovered from the reduction of maintenance and operational costs associated with operating diesel engines.

The project could result in a new generation station capable of providing the communities of Eagle and Eagle Village dependable low-cost, non-polluting electrical generation for the next 20 years and longer thereby enhancing the communities' sustainability, economic opportunities and the quality of life for the residents. The new power station and associated facilities will reduce APC operations and maintenance requirements and improve the ability of APC to provide the community with dependable electrical service. Potentially the technology, if proven successful, could be installed in other locations with similar generation requirements that are owned and operated by APC and others in Alaska.

This award of \$1,604,745.00 will be used for the study, engineering, manufacturing, installation, testing, operation and maintenance of a new generating facility for the city of Eagle, Alaska. The new generating facility will utilize a state-of-the-art hydrokinetic turbine technology with the promise to offset and/or replace diesel powered electricity generation in the community of Eagle. Specific activities to be carried out include:

- Acquisition of the property required to construct and operate the project,
- Final Engineering and design,
- Acquisition of the project equipment including the turbine, anchoring system, converter/control station, interconnecting conduit/cable assembly and auxiliary equipment,
- Construction, including directional boring and foundations, and
- Operation, maintenance and monitoring for a three year period.

All Commission funding is intended for use for the scope of work identified in the Award document only. Any balance of funds remaining after the full scope of work has been completed will be returned to the Denali Commission. Monies previously expended by

Alaska Power Company in developing and permitting this project to this stage have not been quantified here, but are considered significant match to this project.

2. Milestones

The following milestones are identified as the major steps to be completed as part of the project. "Planned" dates for the first milestone are included here. As part of each progress report, recipients shall update the progress toward meeting these milestones (see section 7, Reporting).

Milestone	Planned	
	Start Date	End Date
Final Design & Permitting	6/1/07	8/1/07
Construction	8/1/07	8/31/08
3-year operation & evaluation period	9/1/08	8/31/11
Project Close-out	12/31/11	

3. Award Performance Period

The Award performance period is June 1, 2007 through December 31, 2011. This is the period during which Award recipients can incur obligations or costs against this Award.

The photo documentation shall include a minimum of three, dated photos per reporting period such that a complete record of the construction is maintained over time, from "before," showing the situation before the start of construction, to "during" showing work proceeding on the project, and "after" to show the finished project. Photos shall be provided in a digital format as part of the on-line report. A short description of the activity and names of those in the photos shall also be provided.
- b. **Standard Form 269A Financial Status Report – Short Form (SF269A)** shall be submitted on a quarterly basis via fax, e-mail or mail.
